INTENTION AND EXPECTATIONS

Our goal is to serve you, empower you and support you as you grow your business.

This membership is an investment into your business but you still have to do the building! You will benefit from this membership as you explore and make use of our services. An increase in your client base will happen because you apply yourself to the opportunities made available to you through the support we provide, not because we are a dedicated marketing team.

This is a place to plug in to find support for your growth as a person, practitioner and professional.

As a global organization we are committed to contextualizing our membership fees as needed. The current options are:

\$57 PER MONTH | R570 PER MONTH

We require a 4 month commitment.

15% discount will be applied when membership is paid on an annual basis.
